Our college has an active student council with representation from all programmes. Students Council meeting is conducted every month, chaired by the Principal and cochaired by the Dean - Student welfare and cocurricular activities. New members are inducted in the first meeting of the academic year and the Principal briefs them on the objectives, role and responsibilities of the students council. He also sums up the action taken on the minutes of the earlier meetings. Equal opportunity is given to all the members to air their suggestions / grievances / complaints / representations. Members of the council interact with their classmates and represent their collective suggestions. On priority basis, action is taken to fulfill their suggestions. The council is pivotal to the college administrative system and serves its purpose effectively. The Dean (SW CCA) sensitizes the members of the students council to government scholarships, private scholarships, and various insurance schemes. Students enjoy adequate representation in academic bodies such as Board of Studies, Academic Council, Library Committee and Readers' Club. In Board of Studies and Academic Council, students' suggestions on curriculum, evaluation process, additions / deletions of course content are discussed and due considerations are given. In Library Committee, students' suggestions on purchase of new books/magazines/journals/ are taken into account. Readers' club is active and organizes book reviews, competitions, and book exhibitions in the campus. Various clubs and their innovative activities provide a platform for the students to think 'out of box'. Thiagarajar Maths Club (THIMAT), EXCITE, TIC, THIPSY are various clubs which involve in learning, promoting lateral thinking. Students are given responsibilities as President, VicePresident and Secretary

The college is committed to have safety, violencefree, gender discriminationfree campus and is keen on avoiding exploitation, harassment and intimidation of any kind. Hence antiragging committee and internal complaints committee are formed as per the guidelines of the UGC, with members from various departments. These committees meet periodically and send reports to the JDCE and University. The Sports Committee comprises of students members, and recommends the purchase of sports articles and preparation of layout for intramural tournaments, and conducts zonal level and college level competitions. The college is a 5S certified institution, and for its sustenance and moving towards excellence, department level 5S groups are formed. **7.2 – Best Practices**

7.2.1 – Describe at least two institutional best practices

**BEST PRACTICE - I**

1. Title of the Practice Promotion and dissemination of knowledge on multidisciplinary research

2. Objectives of the Practice ? To inculcate multidisciplinary research among teachers, scholars and students ? To create an ambiance and interpersonal research relationship among staff members for knowledge acquisition and benefit sharing

3. The Context The trend in research now has become multidimensional viewing research problems in different angles. A single research issue will have answers from different fields of research and so involvement of two or more researchers / laboratories has become common across the world. For instance, global issues like climate change and its consequence on man and biosphere are need to be addressed by scientists working on different fields. Hence, to attain global competency in research, promotion of multidimensional research is essential.

4. The Practice Multidisciplinary research is being carried out in the college through various projects

5. Evidence of Success ? Winter Schools / Workshops / Training programmes attended by students from Mathematics, Physics, Chemistry, Botany, Zoology, Chemistry, Tamil, Economics of our college and various other rural colleges without any fee are being conducted ? Research papers are being published

6. Problems Encountered and Resources Required Further, grant is required in furtherance of the activities

7. Note: To sensitize the necessity and importance of multidisciplinary research HEIs may have to design strategic plan.

**BEST PRACTICE - II**

1. Title of the Practice Capacity enhancement on Academic, Research, Entrepreneurial and Employable skills utilizing alumni expertise

2. Objectives of the Practice ? To improve understanding and knowing the real applications of the curriculum ? To promote research culture and to register for post doctorate fellow in National institutes and abroad ? To inculcate and enhance skills for employability

3. The Context Though our students have academic knowledge in their respective discipline, they are lacking in its deep understanding and knowing its application along with theoretical study. After post graduation most of the students do not prefer research due to lack of network with academic peers and are unaware of Doctoral and Post Doctoral fellowship in India and Overseas countries. Having the capacity and attitude to become Entrepreneurs, students are reluctant to take risk due to financial constraints and fear over success rate. Most of the industries are expecting students having programme objectives and employable skills to immediately get into the Industry system.

4. The Practice Alumni who are expertise in their field of studies have been identified from different disciplines. They are invited to interact with the students to make them understand the objectives of course outcomes, programme outcomes and programme educational objectives and their real time applications by inviting them as resource persons in seminars, workshops and conferences and to have personal interactions with them. Alumni of the college are working / doing research in

National and International research Institutes. They have been invited to interact with the students and scholars. It helps them to have linkages with their institutes to have internships and to do research for their doctoral / post doctoral degrees. To strengthen collaborative research PG students of are undertaking research projects with the help of alumni. The alumni of Dept. of Commerce Mr. T. Ganesh, Chief Finance Officer, Bank of Muscat, Oman and P.R. Kannappan, Head, Treasury and Planning, SARA Ltd., Hong Kong both of them gave special lectures in the International Conference organized by the Dept. of Commerce. Our alumni are practicing as Chartered Accountants, extending their service by frequently interacting with the students of Department of Commerce and few Entrepreneurs have helped the students by permitting them to visit their industries. The alumni of NCC Army and Navy have frequent meeting with the cadets and share their experience. They have executed a few extension activities. Alumni expertise are very well used by the college and 20 academic programmes were organized in the year 2018 - 2019. 5. Evidence of Success Students opting for research in National and International laboratories are increasing. Alumni network is strengthening. Alumni corpus fund has been generated. Alumni have recruited our students. Alumni visiting our campus are increasing. Alumni lecture series, Alumni programmes are cost effective. 6. Problems Encountered and Resources Required Lack of data to know the whereabouts of old alumni Hardship in planning their programme in accordance with the academic calendar 7. Notes We do believe in more contribution from alumni through non financial means compared to financial means.

### 7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

The area distinctive to the vision of the college is to provide affordable quality higher education. In the process of attaining the vision, short term and long term strategic plans have been drawn. Emphasis is being given to initiate various quality measures such as augmentation of infrastructure, quality of teaching staff, increase in need based new programmes, quality certification, interaction with other institutions, placement and emerge as an institute of excellence on par with eminent institutions. To provide an affordable quality higher education to all at all times is the functioning strength, formulating morale and formatting spirit of our college. In order to achieve these things, the institution follows a steadfast principle of collecting affordable fee for aided stream and selffinanced stream students. This practice is in vogue since the inception of the college. The institution stringently follows Government regulations on reservation policy and merit in admission. No capitation fee is collected in both aided and selffinance stream. Quality standards prescribed by the UGC are strictly adhered in appointing staff members and Career Advance Scheme is followed in promotion of Assistant Professors with the committee constituted as per the guidelines of Directorate of Collegiate Education and maintain teacher - student ratio as 1:21. Considering the willingness of students in pursuing higher education in this institution, programmes are introduced under self financed stream with nominal fee. Therefore, new programmes such as B.Com Computer Applications and B.Sc. Physics have been introduced during 2018 - 2019 under the selffinanced stream. The research cell, with welldefined research policy, motivates teachers and students to pursue research by way of providing facilities and incentives. 73 of teachers in aided stream and 33 of teachers in un aided stream are doctorates. There are 67 research guides and 102 scholars are persuing doctoral

programmes. In the way of promotion of research, the college houses 10 recognized research centres and a common instrumentation centre with active research evidenced by publications and operation of major and minor research projects. Quality education is complemented with an everenhanced infrastructure. The college constantly augments its infrastructure, catering to the needs of all levels of academic programmes. The fruition of quality education is career readiness and a lucrative placement. This cell offers precampus training, conducts oncampus placement drives and effectively bridges the gap between the demands of the industries and our skilled students. Every year, the number of students getting placed through on and off campus interviews increases with a reasonable median salary. Socially backward students are facilitated with backward class, scheduled caste and scheduled tribe scholarships from the state government. Economically backward students are helped to get scholarships from Sitaram Jindal Foundation, Murugappan Chettiar Foundation etc. The Management has sanctioned scholarship to the tune of Rs. 5 lakh in the year 2018 - 19 to the deserving students. Besides value based teaching, the institute also inculcates values by practice. In our journey towards excellence, the college has been ranked 44th by NIRF in 2018 and 34th in 2019.
